Sectors we have worked for:

Why DreamWorth solutions??

Our Core Values:

Team

We believe that the most valuable resource we possess is our people. DreamWorth Solutions is not just a gathering of highly skilled individuals, but a team. It is built not only on someone's exceptional skills, but rather on collaboration and teamwork. The most valuable resource that DreamWorth Solutions has is the people. Throughout years of growth, owing to investments into training, scrupulous selection procedures, competitive benefits and appealing career possibilities, we managed to assemble a mosaic of motivated, loyal and highly skilled IT professionals. The effective work of DreamWorth Solutions resides on collaboration and teamwork between all its members, each one perfectly doing his own job.

Customers

DreamWorth Solutions is dedicated to its customers and partners. We believe that the most important factor of our success is the success of our clients, (and provide them with tools for successful business). DreamWorth Solutions both in idea and realization is a client-oriented company. By supplying our customers with top resources and skills, we fulfill our main goal - add value to their businesses through knowledgeable application of information technologies. Because we work closely with and for our customers, we are successful only when our clients succeed.

Our Operating Principals:

1) Verifiable Information:

We offer you documents, references, artifacts, etc. to prove our expertise. Not just words. Dreamworth Solutions. Offers documents, references, artifacts and other tangible evidence to verify its expertise; we never make unsupported claims.

2) Cultural Collaboration:

We are experienced in bridging the gaps between different cultures and business traditions. We work with our customers on the basis of respect for their local approaches and business practices while employing the advantages of globalization.

3) Smart Communication:

You will not feel any time difference even if you are located on the other side of the globe. Depending on your requirements, complete project and progress information can be available around the clock.

4) Ingenuity and Professionalism:

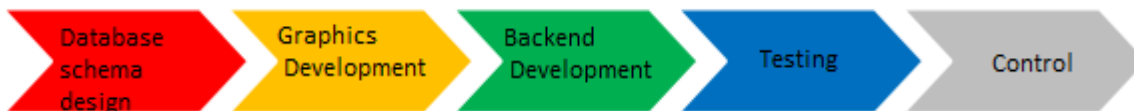

Although we base our solutions on sophisticated principles and technologies, they are still easy to use and understand. We know how to make complicated things simple and useful.

5) Understanding Needs :

To provide satisfactory solution, we first analyze the requirement description. If we discover some missing points, the concerned person of the field will have a discussion with client and suggest him better option. As we will like to gather all the required information about the business like business objectives and other necessary information required for development of project. After getting clear thought of project, we will move forward. We will anticipate challenges with our highly qualified and experienced team members. Client defines the task and gives the initial information for the project. Company project manager will ask additional questions to clarify the work to be done.

6) Development:

The actual work on an offshore web development of e-commerce software development project includes several simultaneous processes. Client is provided with the capability to control the progress on each of the activities at any development stage. The DreamWorth Solutions -prototype originally shown to client is step-by-step replaced by a full-scale solution. The processes are:

Business Model:

"A business model of any business is an idea or concept for making money profitably". It is concept for transformation of inputs into value adding outputs. DreamWorth Solutions is IT solution providing company and follows various strategies, trading practices, operational processes and policies that consists perfect business model to facilitate offshore customers. DreamWorth Solutions defines its business model under following model blocks.
