## Developer Websites

Property development, is a multifaceted business process, encompassing activities that range from the renovation and re-release of existing buildings to the purchase of raw land and the sale of developed land or parcels to others. Real estate developers are the people and companies who coordinate all of these activities, converting ideas from paper to real property. Real estate development is different from construction, although many developers also manage the construction process.

# College Websites

A college website is any website built, designed, and maintained by or for a college. Many college websites share certain characteristics & have developed guidelines to help college create the best useful websites.

- ▶ Displaying student projects.
- ▶ Directing visitors to other resources on the web.
- ▶ Providing a forum for teachers, administrators, students, and parents to exchange information such as news and calendars of events.
- ▶ Showing that a college is excellent with regard to science and new media in comparison to competitive colleges.
- ▶ Providing a platform for internal college learning activities.
- ▶ Displaying school curriculum and courses.
- ▶ Providing staff and students with an entrance and front-end to documents and resources hosted locally.
- ▶ Creating and showing in public a 'corporate identity'.

## NOAA DEEPWATER HORIZON LIBRARY

### NOAA

As the nation's experts on oceanic and atmospheric science and the lead science agency for oil spills, NOAA was on-scene at the Deepwater Horizon oil spill since the earliest moments of the crisis. Our satellites in space, planes in the air, ships and buoys on the water, gliders under the sea, and scientists on the ground provided mission-critical information to guide the emergency response and now the long-term restoration of the Gulf Coast. Much of that information is now centralized on this website.

### Precast Concrete from High Concrete Group

Architects, general contractors, and construction managers have come to rely on High Concrete Group LLC for projects ranging from parking garages and commercial buildings to sports arenas and educational institutions. High Concrete Group are experts in precast construction, and specialize in the use of precast concrete, where building components are constructed off-site in a factory-controlled environment and delivered to the building site.

With over 30 years of precast experience, we've developed a reputation as one of the leading precast companies in the nation. We can help solve the unique design challenges faced during large and complex construction projects, ensuring they will be completed on time and on budget.

#### The Many Benefits of Architectural Precast Concrete

Precast concrete from High Concrete Group offers numerous advantages. From a design standpoint, the many available textures, color, and form options along with the capability for brighter, more open, and flexible interiors offer greater design freedom.

From a construction perspective, precast concrete offers superior durability due to its strong resistance to the damaging effects of soil, mold, and mildew. Because we cast concrete in a factory setting under tightly controlled conditions, such as our precast concrete walls, we are also able to produce

**U**n rey recibió como obsequio dos pequeños halcones y los entregó a uno de sus hombres para que los cuidara. Pasado un tiempo, el instructor comunicó al rey que uno de los halcones estaba ya perfectamente entrenado, pero al otro no sabía qué le pasaba, pues desde el primer día estaba posado en una rama y no había forma de que se fuera a volar, hasta el punto de que tenían que llevarle su alimento a ese lugar.

El rey mandó llamar a varios curanderos y sanadores, pero nadie lograba hacer volar a aquel pequeño animal. Pidió consejo a otros sabios de la corte, pero no hubo forma de moverlo de allí. Por la ventana de una de sus habitaciones, el notario podía ver que el halcón permanecía inmóvil.

A la mañana siguiente, vio al halcón volando ágilmente por los jardines. "¿Cómo lo han conseguido? Tráedme al autor de ese engaño", dijo el rey. Enseguida le presentaron a un sencillo campesino. "¿Tú hiciste volar al halcón? ¿Cómo lo lograste? ¿Eres mago, acaso?" Aquel hombre contestó: "Almora, lo único que hice fue cortar la rama sobre la que reposaba. El pájaro no tuvo más remedio que empezar a emplear sus alas y echar a volar".

Este sencillo relato trae a nuestra consideración el daño que muchas veces sufran, al comienzo de su vida, quienes tienen todo demasiado resuelto y toda las fuerzas a emplear sus propios

## Testimonials

We have been searching for an SEO company with good potential for a while and had gone through many proposals from many companies but none gave us the clear idea as DreamWorth Solutions did. We would definitely recommend DWS team for SEO.

Girish Desai

Dreamworth team did a fantastic job enhancing our company's internet presence and our Google ranking. We were able to significantly reduce our expenditures for Google ads without a drop-off in page hits. If you need SEO, I don't think you can find a service better than Dreamworth.

Satish Chauhan

When we decided to create our company, our vision was to bring to life a website that didn't look like a website. We were thrilled when we found the DWS team. They took our vision and made it come to life. DWS is no doubt the best design company I ever worked with. I will come back again.

Anil Dwivedi

The DWS team made awesome website for us which was responsive, quick to load and good looking. We appreciate the efforts taken by them and wish them all the best for future.
